Subject: What you get when COPS are "CROOKED" and "DIRTY".

Date: Mon, Feb 23, 2015 11:19 am

Ms. Fogleman: This is for Colonel Edmonson and Lt. Col. Dupuy: After "signing on" to the conspiracy to keep from public view the transcript of "Trooper" Nelson's PERJURY (Hey! If nobody can even look at it, then it didn't happen. Right?), and assigning one of the SUBORNERS of Nelson's PERJURY to determine if PERJURY was committed (Hey! No PERJURY committed, because if it was, then I was complicit, and I don't want to go to jail!), the two of you made an attempt to LEGITIMIZE this LUNATIC action by invoking " ... the confidential nature of the proceeding" in " ... this confidential matter". Just where, oh where, did you get THAT from? McGaha, Stewart? Plattsmier, "hissef"? Your "Office of Legal Affairs? Tell whoever it was to get back into the law books. Louisiana Supreme Court Rule XIX, Section 16(A) provides for "confidentiality" EXCEPT as provided for in subsection (3), which is applicable when the proceeding is "based upon allegations that have become generally known to the public" [applicable here, because my allegations against Nelson and others are :public record" in Civil Action No. 06-7280 on the Eastern District docket, and in Case No. 08-30052 on the Fifth Circuit docket, and in Docket No. 13-PDB-122 before the Louisiana Attorney Disciplinary Board, in which formal charges were filed], and in subsection (4), which is applicable when "there is a need to notify another person or organization in order to protect the public, the administration of justice, or the legal profession. PERJURY by a State Law Enforcement Officer, and SUBORNATION of same by a licensed attorney, who also happens to be an Assistant District Attorney in the Parish where the PERJURY was committed and SUBORNED fit squarely within subsection (4) of Rule XIX, Section 16(A). But this is what the public gets when COPS are "CROOKED" and "DIRTY", as are their "enablers". The two of you (and others) are truly PITIFUL, and living in "MONDO BIZZARRO", because you sure aren't on planet EARTH! Let me know when you have turned this case over to the Federal Bureau of Investigation. Ashton O'Dwyer.
