Ms. Fogleman: The following is for the Colonel and Lt. Col. Dear Sirs: If you can tear yourselves away (and your minions away) from writing tickets for jaywalking and expired brake tags in the New Orleans French Quarter (once your "window-shopping" is over, of course), take a look at the Interrogatories and Requests for Production of Documents, Etc. which I propounded to Trooper Nelson, Trooper Christopher Ivy (Badge No. 1139), the Louisiana State Police, and the Louisiana Department of Public Safety and Corrections, among others, in Civil Action no. 06-7280 on the Eastern District docket on February 6, 2008. These "discovery devices" were mailed to you today, "under separate cover". The "Special Counsel", McGaha, was "supposed" to use the Interrogatories, etc. as his "template" to examine Nelson at deposition on January 21, 2015, but due to his INCOMPETENCE, and his own participation in a CRIMINAL CONSPIRACY to COMMIT, and to SUBORN, PERJURY, he did not ask relevant questions, or follow up with pertinent questions when he knew or should have known that Nelson was LYING. Maybe you and/or the FBI will have better luck when Nelson is called out "on the carpet" and confronted with his many lies. Now I've handed you the template: USE IT! And by the way, have you received Nelson's deposition transcript? If not, why not? Who is the "point man" with the FBI in connection with Nelson's perjured deposition testimony, and McGaha's subornation of same (aided and abetted by Ms. Stewart, and others)? Thanks for getting back to me. Ashton O'Dwyer (504) 812-9185.
