Re: Material Misrepresentation in Connection with PDRM's Proposal Submitted in Response to State of Louisiana RFP # 10740-47 – Restore Louisiana Homeowner Assistance Program ("RFP")

Mr. Forbes:

We were informed yesterday that Provident Disaster Resources Management, LLC (PDRM) falsely represented to the ReLA Coordinator and the State of Louisiana Office of Community Development, Division of Administration that Roy Anderson Corp (RAC) was a member of PDRM's sub-contractor team for the referenced project. PDRM's representation is totally false and PDRM had no authority to represent that RAC would be a subcontractor on their team. PDRM's unauthorized inclusion of our company in their proposal has caused much concern to both RAC and to IEM, our only teaming partner.

RAC has over sixty-two years (62) of experience in the construction industry, and has successfully managed many significant disaster construction projects resulting from Hurricanes Betsy, Camille, Elena, Katrina, Sandy and the Flood Work in the Shelter at Home LA. Any listing or reference of RAC's Disaster Experience in PDRM's proposal was not authorized and should be totally excluded when evaluating their Subcontractor's Disaster Experience.

RAC has an executed "Exclusive" Teaming Agreement with Core Construction Services, LLC to provide subcontract services for the Louisiana RFP #10740-47-Restore Louisiana Homeowner Assistance Program ("RFP"). Moreover, it is a direct contradiction of PDRM's express certification made as required by the RFP with the submission of the Certification Statement attached to the RFP as Attachment V. Therein PDRM certifies that: "The information contained in its response to this RFP are accurate." Clearly that certification is false.

Again, please disregard any and all representations regarding RAC in PDRM's proposal for the referenced solicitation. Thank you for your attention to this serious matter.

Sincerely,

ROY ANDERSON CORP
