I am happy to see you are climbing the ladder of success.

One thing we definitely share/have in common it's in our blood and that is determination and as determined as you are to climb the ladder of success, I am just as determine to clear MY name.

Remember what you told me, to subpoena you, YOUR words ("I cannot lie under oath") it's just sad that I have to spend more money on top of the \$100,000 worth of invoicing your Firm bill me, and at the end the Judge tells me it was all to do with a illegally lien, and you're the one that filed the lien. The good news is I now have the evidence to prove that YOU did not illegally file the lien, but as you know as the State Attorney General the bureaucratic (The Deep State) have unlimited resources (taxpayers money) to pay attorneys to protect them. As the AG I don't understand how you can continue to allow them to use taxpayers money to defend their crimes.

But I guess what better witness to have then YOU (my ace in the hole) to show that these bureaucrats (that you now represent) have fraud the Federal Government.
