To Whom It May Concern:

I am a General Contractor, license # 54378.

Under Jon Mabry's leadership and management, Mississippi reconstructed, repaired or rebuilt thousands of residential homes and public facilities after Hurricane Katrina. These projects were heavily scrutinized and subject to intense federal regulations, but Jon completed the housing recovery portion of the project an entire year early. Unlike typical recovery programs, he also ensured that all the construction projects were on budget and that no federal funds were clawed back by the government because of poor accountability, errors, or fraud. Jon's expertise in large-scale construction management will ensure the success of any such program.

Sincerely,
