Subject: Public Records Request

Mr. Hannaman:

First, thank you for the correspondence from Dillard University for Commissioner Riecke's reappointment in 2019.

In light of the incredible revelations in that correspondence and the fact that the most recent *Sound Off Louisiana* feature entailing Lloyd Grafton's and Belinda Parker Brown's commentary on Riecke is surpassing even our wildest expectations regarding hits and social media shares, I now make the following public records request:

Please supply all correspondence received from any university President for any LSPC appointment or reappointment from January 1, 2016 through the current date (ignoring the just-received Riecke documentation obviously but remaining mindful that I want any correspondence received from Dr. Guillory as the earliest possible time I can obtain it). Please also include Mr. John Atkins' correspondence even though he opted to resign prior to even attending a single meeting.

Thank you, and I hope your weekend has gone well.
